

**WORLD  
VISION  
TANZANIA**

Strategy Summary  
2013 - 2015

## Mission

WORLD VISION is an international partnership of Christians whose mission is to follow our Lord and Saviour Jesus Christ in working with the poor and oppressed to promote human transformation, seek justice and bear witness to the good news of the Kingdom of God.

## Vision

*Our Vision For Every Child, Life In All Its Fullness; Our Prayer For Every Heart, The Will To Make It So.*

## Call and Aspiration

World Vision Tanzania aspires to bring hope to the children of Tanzania by responding with an empowerment approach that restores communities to what God intended:

- People understand they are empowered with the gifts, abilities and capacity to change the world around them for the better
- People are good stewards of their lives, communities, resources and relationships
- People work to support themselves and their families with the fruit of their labor

## ABOUT WORLD VISION TANZANIA

World Vision Tanzania (WVT) is a Christian relief, development and advocacy Non-Governmental Organization (NGO). It started its operations in the United Republic of Tanzania in 1981, assisting all people regardless of tribe, religion and ethnicity. The population of Tanzania is 43,601,796 and out of these, 3.3 million people are impacted by the work of WVT, including 1.2 million children.

WVT facilitates Programmes through five zones in 13 out of 30 regions in the country. In FY 13 there are 62 Area Development Programmes, 6 Government grants and 53 Private Non Sponsorship projects. The focus areas in these Programmes are Livelihood; Health and Nutrition; Water, Sanitation and Hygiene (WASH); Education; Spiritual Development, Protection and Justice for Children.

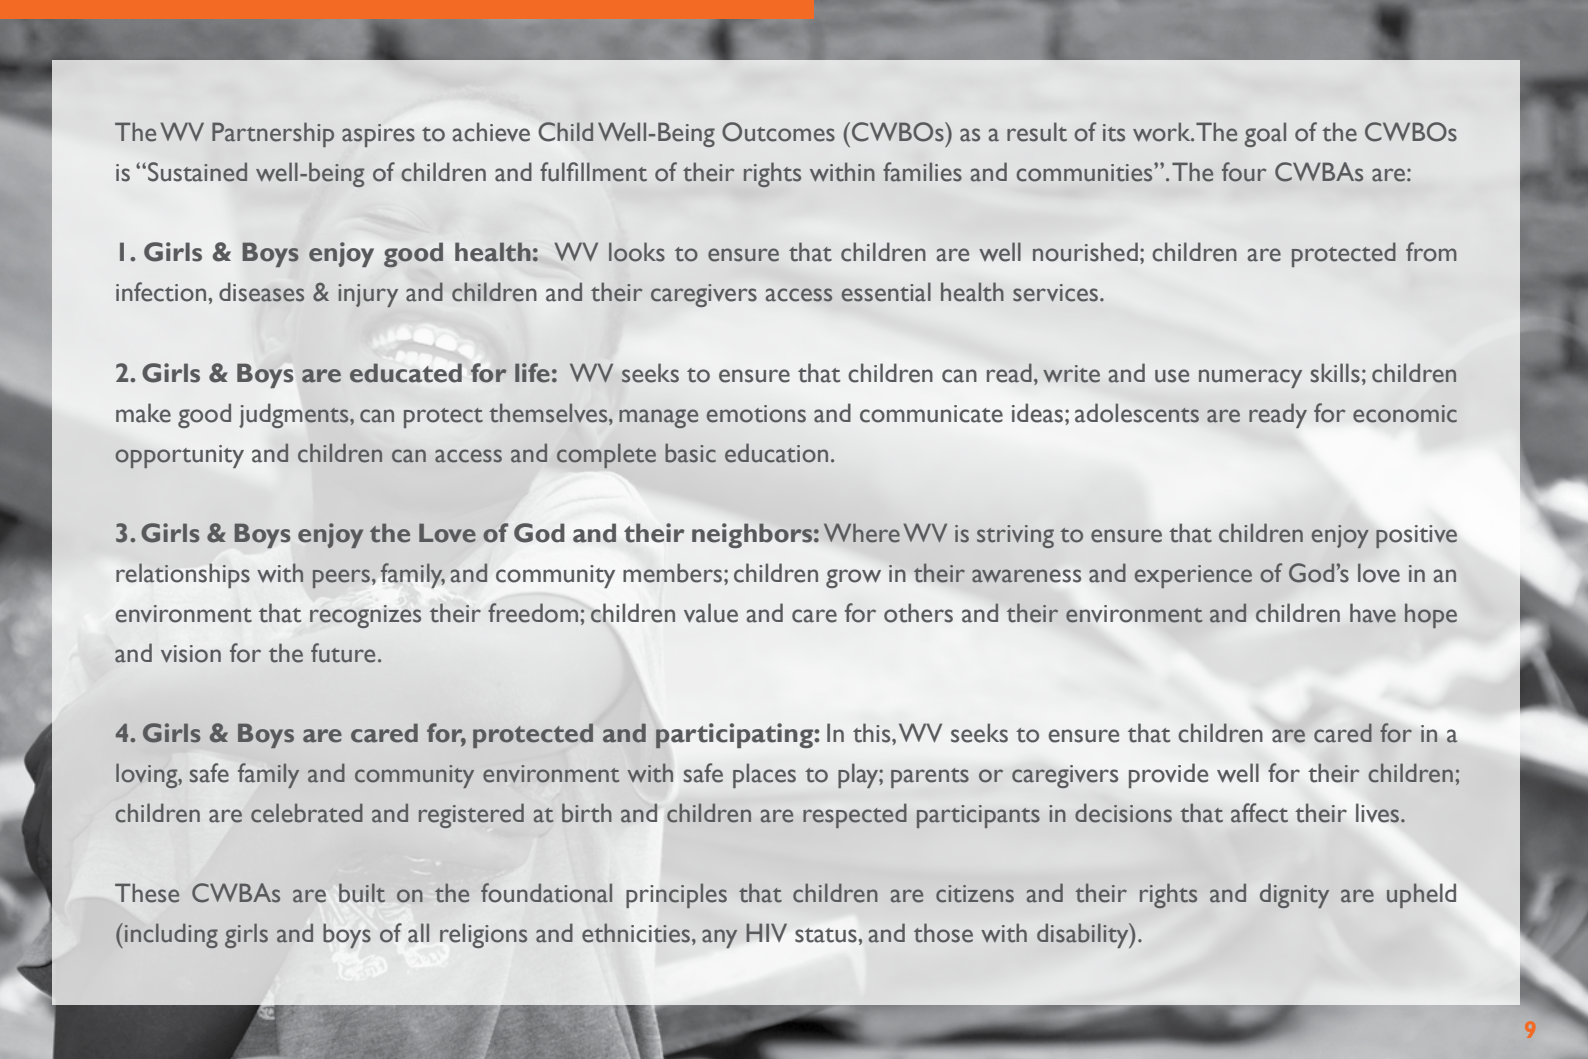

Livelihood is the leading priority area of focus because agriculture is the mainstay of Tanzania's economy.

# CHILD WELL-BEING ASPIRATIONS (CWBA)

The WV Partnership aspires to achieve Child Well-Being Outcomes (CWBOs) as a result of its work. The goal of the CWBOs is “Sustained well-being of children and fulfillment of their rights within families and communities”. The four CWBAs are:

**1. Girls & Boys enjoy good health:** WV looks to ensure that children are well nourished; children are protected from infection, diseases & injury and children and their caregivers access essential health services.

**2. Girls & Boys are educated for life:** WV seeks to ensure that children can read, write and use numeracy skills; children make good judgments, can protect themselves, manage emotions and communicate ideas; adolescents are ready for economic opportunity and children can access and complete basic education.

**3. Girls & Boys enjoy the Love of God and their neighbors:** Where WV is striving to ensure that children enjoy positive relationships with peers, family, and community members; children grow in their awareness and experience of God’s love in an environment that recognizes their freedom; children value and care for others and their environment and children have hope and vision for the future.

**4. Girls & Boys are cared for, protected and participating:** In this, WV seeks to ensure that children are cared for in a loving, safe family and community environment with safe places to play; parents or caregivers provide well for their children; children are celebrated and registered at birth and children are respected participants in decisions that affect their lives.

These CWBAs are built on the foundational principles that children are citizens and their rights and dignity are upheld (including girls and boys of all religions and ethnicities, any HIV status, and those with disability).

In the next 3 years World Vision Tanzania will be contributing to the measurable improvement in the sustained well-being of 1.2 million girls and boys – especially the most vulnerable through the following priority areas: Livelihood; Health and Nutrition; Water, Sanitation & Hygiene (WASH); Education and Advocacy & Justice for Children.
