# INUKA ANGAZA FUND

For Children | For Change | For Life

## INUKA ANGAZA FUND

*Life without education is life without opportunity*

Education is a key pillar in the development of a child and the entire nation. Inuka Angaza Fund's interventions are geared towards helping boys and girls attain reading, writing and numeracy skills to build a solid foundation for their intellectual and social development.

In Kenya, there are communities that still do not have access to quality education facilities that enable children to be educated for life. Inuka Angaza Fund, was established to change this situation by contributing to increased access of quality early childhood development education by the most vulnerable children in the most impoverished communities. We invite you to join our mission to unleash the potential of every child through investing in education

Your support will go towards capacity building of early childhood development education (ECDE) teachers, infrastructure enhancement and community support.

When children can read they can make good judgement, protect themselves and be ready for economic opportunities.

## EARLY CHILDHOOD DEVELOPMENT EDUCATION

**Inuka Angaza Fund** is World Vision Kenya's local resource development fund.

The goal of the fund is to contribute to child well-being outcomes by growing local resources for projects and programmes that help children, especially the most vulnerable, access quality early childhood development education.

Inuka Angaza Fund seeks to raise resources from World Vision employees, external individuals, communities of faith and corporate partners to support identified projects in early childhood development education within World Vision Kenya's operational areas. We serve all people regardless of religion, race, ethnicity or gender.
