### **FOREWORD**

On behalf of the Board of Directors, allow me to express my deep gratitude to everyone who has contributed to the achievements and mission of World Vision in Kenya.

For more than 40 years, World Vision Kenya has worked closely with the Government of Kenya, donors, partners knowledge and enhanced confidence

and local communities to help address poverty and injustice among Kenya's most vulnerable communities. It has been a priviledge to visit communities wwe work alongside, and witness lives and communities transformed. As stewards of our investment and gifts, the Board unreservedly endorses the financial statements contained in this Annual Report.

As part of our commitment to continually learn and improve, the Board established a comprehensive succession, retention and transition policy to ensure business continuity and transfer of institutional knowledge within the Board. Through this initiative we have seen smooth onboarding of new members, transfer of institutional

to make contributions immediately after joining the governing body.

In Financial Year (FY) 2019, we seek to play a greater role in mobilising Kenyans to support the well being of vulnerable children in Kenya. We invite you to join us in this noble task - to deepen our commitment to the most vulnerable children in our midst and ensure they grow in a safe environment, and develop to their full potential.

Sincen

Roseanne Mugo-Ogonji Board Chair, World Vision Kenya

# MESSAGE FROM THE **NATIONAL DIRECTOR**

In FY2018, World Vision Kenya directly helped to improve the well-being of 1.8 million children, including 128,035 children registered for sponsorship in 44 programs spread across 35 counties in Kenya.

This achievement would not have been possible without strong community partnerships, networks and generous support of our donors and dedicated staff. This annual report demonstrates the potential of integrated development against children.

support.

Collaboration with other organisations is essential, if we are to meet shared challenges such as achieving the 2030 Sustainable Goals and the Global campaign 'It Takes a World to End Violence Against Children'.

approaches, as well as innovation. We were pleased by the growth in our overall portfolio from 74 million US dollars in FY2017 to over 82 million US dollars in FY2018. We are grateful for your partnership. Thank you for your

During FY2018, World Vision Kenya's campaign focus was on ending child marriage, sexual violence, child pregnancy, Female Genital Mutilation and child neglect. We were encouraged by the capacity of children to engage political leaders during planned local and national forums to end violence

We believe that Kenyans have the potential and moral obligation to contribute towards the well-being of the most vulnerable. "Inuka Angaza" our local fundraising platform invites former sponsored children, Kenyans and corporates to participate in the longterm development of their country.

That we have made encouraging progress, is due to the support of communities, donors and organisations that have put their trust in us to do our best to deliver real change and improve the lives of vulnerable children in Kenya. Please take time to review our work.

Together we can do more for the sustained well-being of children.

François Batalingaya National Director, World Vision Kenya

# ABOUT **WORLD VISION KENYA**

World Vision is a global Christian relief, development and advocacy organisation dedicated to working with children, families and communities to overcome poverty and injustice. World Vision serves all people regardless of religion, race, ethnicity or gender.

We work alongside families as well as local, national, and global partners so as to help children and their families take an active role in building lives free of need and full of promise.

We speak the truth against injustice and continually challenge ourselves and others to do the utmost for those we serve.

#### OUR ASPIRATION IS TO HELP ENSURE GIRLS AND BOYS

- Enjoy good health,
- Are educated for life,
- Experience the love of God and their neighbours
- Are cared for, protected and participate in improving their lives.

We have been working in Kenya since 1974 through Transformation Development Programmes integrating Emergency Response and Advocacy, to addresses context specific issues within geographically defined communities. World Vision seeks to deepen its commitment to children and especially the most vulnerable.

### **OUR VISION**

Our vision for every child, life in all its fullness. Our prayer for every heart, the will to make it so.

### **OUR MISSION**

World Vision is an international partnership of Christians, whose mission is to follow our Lord and Saviour Jesus Christ, in working with the poor and oppressed to promote human transformation, seek justice and bear witness to the good news of the Kingdom of God.

#### CORE VALUES

- We are Christian
- We are committed to the poor
- We value people
- We are stewards
- We are partners
- We are responsive.

# **IMPROVING LIVELIHOODS & RESILIENCE**

wellbeing of children.

This goal is achieved by empowering households to adopt improved farming methods, engage in small businesses, actively participate in Village Savings and Loans (VSLA) groups as well as other income generating activities. This ensures that children are well nourished and that caregivers are able to provide well for them.

#### The models used in this programme include:

Savings for Transformation, Integrated Food and Nutrition Approach, Ultra Poor Graduation, Famer Managed Natural Regeneration (FMNR) and Local Value Chain Development.

# The Livelihoods and Resilience technical programme seeks to improve livelihoods and resilience for youth, households and communities so as to enhance the

### INTEGRATED FISH FARMING AND HORTICULTURE PROJECT (IFFHP)

Implemented in Homabay County, the IFFHP project focused on food security and income for vulnerable households along Lake Victoria.

Farmers engaged in fish production and sales had the following to say about the IFFHP project:

"In the month of September, I earned a net income of 300,000 Kenya Shillings from selling fish harvested from three ponds.

From that amount, I spent 100,000 Kenya Shillings to pay medical bills for my son who was hospitalized following a road accident. I spent the rest of the money to pay school fees for my two children and an orphan. I sold some of

my chicken and earned an income of 21,000 Kenya Shillings, which I used to meet my basic needs. This is after spending 9,000 Kenya shillings to buy fingerlings and 30 bags of fish feeds at 1,200 Kenya shillings, In total, my gross income was 342,000 Kenya shillings." John Manyaki, a fish farmer at Magunga Area Development Program.

"My farm performed fairly well. Between July and September 2018, I managed to get a net income of 177,000 Kenya shillings from the sale of greenhouse tomatoes, 10,000 Kenya shillings from vegetables (kales), 28,000 Kenya shillings from birds (chicken) and 360,000 Kenya shillings from the sale of fish in three ponds. Out of all these, I have been able to

restock my ponds, acquired 1.5 acres land, improved and expanded my poultry house, bought an inverter charger and battery for my eggs incubator. I have also been able to support my family's basic needs. This is after getting a gross income of 212,000 Kenya shillings from sale of tomatoes; 36,000 Kenya shillings from sale of chicken; 416,000 Kenya shillings from sale of fish and 13,500 Kenya shillings from sale of sukuma wiki. I owe all this to hard work and encouragement from the World Vision Fish Project." Michael Ogalo, a farmer at Magunga Area Development Program in Kenya's Homabay County.

### EMPOWERMENT THROUGH SAVINGS FOR TRANSFORMATION

Nduleve Masika, a 60 year old grandmother, takes care of two grandchildren aged five and eleven years. She is a member of Wendo Wa Kaseve Savings for Transformation Group under the Makueni Cash for Asset Project, Makueni County. The group has 23 members, comprised of 15 women and 8 men.

The members buy shares once per week. One share goes for 50 Kenya shillings and the maximum shares one

# that is equivalent to 5 shares.

"I used to sell a goat or several chicken to raise school fees before I joined the Saving for Transformation Group. It made me sad when I had to destock my livestock, but not anymore. The cash is available on loan from the group every month for members with financial needs, including restocking when necessary. My greatest need in 2017 was lighting for my house. I finally

# FARMER MANAGED NATURAL **REGENERATION (FMNR)**

World Vision positively influenced the inclusion of the Farmer Managed Natural Regeneration (FMNR) approach in the County Integrated Development Plans (CIDP) of Nakuru, Homabay, Baringo, Migori and Elgeyo Marakwet Counties.

Communities were enabled to integrate peace-building initiatives, as an incentive to embrace alternative livelihoods to livestock rustling. For instance, in Kuria *East sub-county, 86 reformed warriors* and victims changed to alternative livelihoods (farming as a business-crop and livestock retail business) whose products benefitted 1,876 school

can buy per week is 250 Kenya shillings

managed to buy a solar lighting system from M-kopa. My three-bedroom house is now glowing with light every evening and my grandchildren can enjoy reading at night as well as early in the morning.

The lighting system has a radio and I love listening to music and news from Musyi FM, a local radio station. I get news about events happening all over the country."

Nduleve Masika, Makueni County.

children. Through engagement with 45 youthful warriors, 27 illegal firearms were returned.

About 1,185 children were empowered as peace builders and as a result, they were able to participate in peace building initiatives.

### 14 – YEAR-OLD GIRL RESCUED FROM CHILD MARRIAGE

Nasapuk Lentilai was rescued from the pangs of FGM and child marriage which had been planned in her village at Nairibi sub-location. As soon as the World Vision (Laisamis ADP) team learnt about the incidence, they partnered with relevant bodies (Sub-County Children Department and the National Police Service) to convene a meeting that prevented the girl from marrying a 60-year-old man.

"Since World Vision helped us to train officials and form the Area Advisory Councils (AACs) in our sub-location, we were able to detect child protection issues in this matter and report the case for action immediately. This is a successful rescue operation and I'm sure others will shy away from marrying off young girls." Alfred Lemasai, the assistant chief of

Nairibi.

### THE ROLE OF FAITH LEADERS IN HEALTHY TIMING AND SPACING OF PREGNANCY

Elgon Todoo 30, is a staunch religious leader at the **"Roho Mafuta Pole"** Church in West Pokot County. For a long time, he was unable to adequately control his family size.

"First, it was just one child. But in a few years, the number increased to seven. My religion is against family planning methods and this poses a great challenge to congregants," says Todoo.

He is among the people from West Pokot County that World Vision offered training on the importance of healthy timing and spacing of pregnancies using family planning methods.

The training sessions were guided by World Vision's Channels of Hope model, which aims at engaging and empowering faith leaders to become change agents for health.

The sensitisation forums gave Todoo insights that he thought were worth sharing with his congregation. "I decided to use my position as a faith leader to propagate the four key messages of Healthy Timing and Spacing of Pregnancy, as well as Voluntary Family Planning," says Todoo.

The congregation is gradually accepting the messages because they can see the positive impact it has on the health of mothers and children in their community.

# IMPROVING WATER ACCESS, **SANITATION & HYGIENE**

The main models used in this programme include: Integrated WASH, Community Led Total Sanitation (CLTS), School Led Total Sanitation, Sanitation Marketing and Design for Behaviour Change (DBC)

#### Description

People with access to a basic (improved) drinking water Educational facilities with functional basic (improved) dr Children with access to basic drinking water at an educa Households informed of point of use water treatment to People with access to basic (improved) household sanita Households with recommended sanitation facilities Communities certified as Open Defecation Free (ODF

Through engagement in budget processes, World Vision lobbied county governments for improved resource allocation for water service delivery. For instance in Nakuru County, budget advocacy efforts resulted into the allocation of 23, 219, 975 Kenya shillings for 6 community water projects in Wema Area Program, Nakuru County.

# The Water, Hygiene and Sanitation technical program seeks to address acute shortage of water, poor access to sanitation facilities and poor hygiene practices.

# WATER - MEETING THE NEEDS OF PEOPLE WITH DISABILITIES

Magdalene, affectionately called **"Gogo"** by her family, now has running water near her home. Blind all her life, she never gave up collecting water, and now enjoys dignity and rest by having accessible water.

Magdalene Kaboon was born blind and has lived in Chepkulul village all her life. She lives with her nephew Joseph Kiptoo, his wife, Salina, and their children. Even though she never married and has no children, she is surrounded by many young grandchildren belonging to her nephews and neighbours. To everyone in her village, she is Gogo. But even with community help, Gogo used to struggle to get water. She would walk nearly three miles *(round trip)* to get water from a traditional hand dug well. Water, though unsafe, had to be pulled up from the 70-foot deep well, using a rope and a bucket.This was dangerous for Gogo.

"I used to go with children to guide me to the water source, and I would carry on my back a whole 20 litres for my use," Magdalene said.

As she got older, the trek for water become more dangerous, and Salina would have to carry extra water for her.

"But thanks to World Vision, we now have Chepkulul water project. In the begining we collected water from a water kiosk about half a mile from us, but later we got a piped connection right to our home," says Salina.

The water is pumped using solar power, making it cost-effective. A hard working water committee was established by the community, and collects user fees. A few years later, an automated chip card was introduced to pay for the water, making management more effective and efficient. With clean water nearby, Gogo no longer feels like a burden to her family. She can get water easily, and with the time she saves, she tends to her chickens and helps take care of the village children.

"On behalf of Gogo and her family , we thank World Vision for helping us get clean water piped to our home," said Salina.

### IT TAKES US ALL TO END VIOLENCE AGAINST CHILDREN (EVAC) CAMPAIGN.

### World Vision's campaign in Kenya focuses on the following:

- Ending child marriage
- Ending sexual violence
- Ending child pregnancy
- Ending female genital mutilation
- Ending child neglect

These child protection issues are addressed through the Seven Globally-agreed strategies for ending violence against children, commonly referred to as INSPIRE.

### PROGRESS MADE BY WORLD VISION TOWARDS ENDING VARIOUS FORMS OF VIOLENCE AGAINST CHILDREN

# FINANCIAL SUMMARY

Susutained funding is bringing hope to vulnerable communities and children in Kenya.

World Vision Kenya's total budget in FY18 was **82,428,490 US dollars**. This included cash, food resources, donations and donated products also known as Gifts-in-Kind.

Our budget increased by 9%. This translates to **7,600,357 US** 

**dollars** in FY2018 compared to FY2017.

The financial statements herein are presented in US dollars, which is also World Vision's functional base currency. The table below shows the funds World Vision received in FY2018 (October 2017 to September 2018), and how these funds were spent.

Thank you for your generous support. \*An exchange rate of Kenya shillings 103 for US dollar 1.00 can be used to obtain an approximate local currency equivalent.

# ABOUT VISION FUND KENYA

Vision Fund Kenya is a microfinance subsidiary of World Vision Kenya that seeks to improve the lives of children by offering small loans and other financial services to families. We believe in brighter futures for children where they can experience the love of God, building lives free of need and full of promise.

Vision Fund implements livelihood and resilience approaches to improve the well being of children. VisionFund's interventions and products in FY2018 directly benefitted **33,184 children**.

### VISIONFUND KENYA PORTFOLIO SUMMARY FOR 2018

| FY18 Portfolio Report                                    |                                       |
|----------------------------------------------------------|---------------------------------------|
| Outstanding Loan Balance (Kenya shillings)               | 436,458,225.00                        |

Families can make clothes and sell them to boost household incomes, thanks to sewing machines bought through Vision Fund loans. Photo I World Vision **PARTNERS** 

### PARTNERSHIP FOR IMPACT FY2018

### GOVERNANCE

The Board of Directors, alongside the Annual General Meeting, is the highest governing body of World Vision Kenya.

The Board consists of 13 directors. With the exception of the National Director and the Vice President of World Vision in East Africa who is the representative of the World Vision International president, all directors are non-executives and are not compensated for their service to the Board.

In line with our commitment to transparency, we have posted our financial summary at the end of this report noting our efforts to increase our yield to ministry.

Amb Kigo Kariuki - Treasurer Prof Peter Ngure - Director Dr Oscar Magenya - Director Mr Paul Lilan - Director Ms Rosalyn Nandwa - Director Dr James Mwanzia - Director Mrs Anne Kimari - Director December 2017 December 2017 December 2017 Retired May 2018 National Director
