

World Vision

GLOBAL 6K FOR WATER

How it works

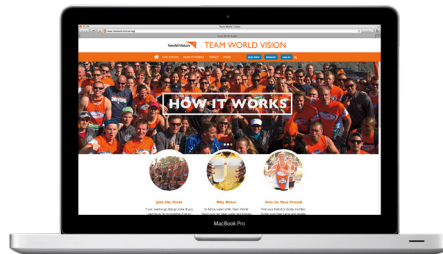

Participating is easy!

We'll provide everything you need.

1. Register at global6k.com

Anyone, anywhere can join the Global 6K – all you have to do is register. On the day, you can walk with friends in your local neighbourhood, park or school, or join others at an organised event near you.

2. Invite friends to support you

Ask family, friends, and co-workers to register and walk with you, or donate to your cause. We'll provide everything you need to rock race day, including a race bib with a photo of a real child like the one who'll benefit from your support.

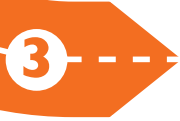

3. Walk, run, or push at the Global 6K

It's race day! Unite with tens of thousands of people around the world to help kids – like the one on your bib – to get clean water. **Every step you take is one they won't have to.**

4. Cross the finish line & celebrate your impact!

You've helped change lives! Kids and communities in developing countries will benefit from clean water projects for years thanks to your participation and fundraising. Share and tag your Global 6K photos with #global6k and add to the community.

Maximise your impact

If you take one more step and sponsor the child on your G6K bib, not only will you help that child realise their dreams, you'll help their community with healthcare, education, child protection, and more.

World Vision

GLOBAL 6K FOR WATER

How it works

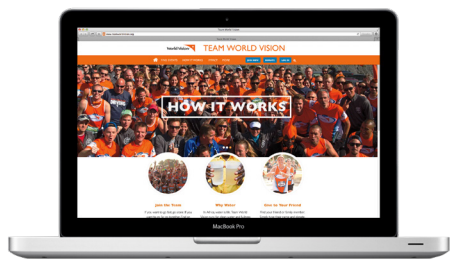

Hosting an event is easy!

We'll provide everything you need.

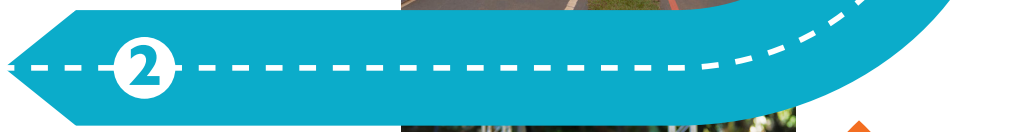

1. Attend an info session & register

Anyone, anywhere can host the Global 6K. You don't need any special skills, just the desire to mobilise people to walk or run for clean water. Find out more during an info session, then sign up as a Host Site Leader, it's that easy!

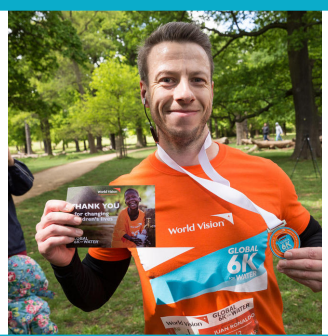

2. Invite everyone to join you

Ask family, friends, co-workers, neighbours, your church family, etc. to join and register under your team page. We'll supply special promotional materials to help you spread the word, along with everything for the big day – posters, banners and more – so your event will be top notch.

3. Host your Global 6K

Time to have some fun! Gather everyone at the start line and ask them look at the child on their bib. **Today, you and your team are changing real children's lives.**

4. Cross the finish line & celebrate your impact

You did it! Kids and communities will benefit from clean water projects for years thanks to you and your team! Celebrate your impact and thank everyone for their support! Remind everyone to share and tag their Global 6K photos with #global6k and add to the community.

Maximise your impact

If you take one more step and sponsor the child on your G6K bib, not only will you help that child realise their dreams, you'll help their community with healthcare, education, child protection, and more.
