

# COVID-19 Emergency Response

Situation Report – April 9, 2020

## Response Goal

To limit the spread of COVID-19 and reduce its impact on vulnerable children and families

## Strategic Objectives

Scale up preventive measures to limit the spread of disease

Strengthen health systems and workers

Support for children impacted by COVID-19 through education, child protection, food security, and livelihoods

Collaborate and advocate to ensure vulnerable children are protected

We urge the world to unite to focus on the most vulnerable children, especially refugees and displaced children

Secondary effects of the crisis on children are putting at least 30 million children's lives at risk, but there are things we can do now to help ease them

Children will need special support now – including psychosocial – to reduce anxiety and stress during and after this crisis

When disaster strikes, we are active on the ground, quickly providing immediate support. We are responding globally but focusing on 17 countries, aiming to reach 22.5 million people (including 11 million children) in an \$80 million response

Joining hands with faith and community leaders is critical to strengthen preparedness, behaviour change and protecting children

With more than 37,000 staff – mostly local community-based workers – we will uphold our commitment to staff well-being

Within six months, we aim to reach:

**22.5 million people**, of whom at least **11 million are children**

World Vision is appealing for an initial **US\$80 million** to implement the response

# COVID-19 Emergency Response Highlights

## PROGRAMME REACH

(as of 1 April 2020)

People

**3,619,990**

Men

1,035,220

Women

1,072,176

Children

**1,512,594**

Boys

772,778

Girls

739,816

## Scale up preventive measures to limit the spread of disease

**3,130,949**

People reached through promotion of preventive behaviours

**135,645**

Caregivers provided essential materials

**4,348**

Community-level public handwashing stations established or maintained

**284,040**

Masks distributed

**54,177**

Hand-washing supplies distributed

**17,871**

Sets of gloves provided

**5**

Water, sanitation, and hygiene (WASH) facilities constructed or rehabilitated

**507,633**

Information, education, communication (IEC) materials printed & distributed

**2,065**

Religious leaders engaged to promote preventive measures and create hope

## Supporting health systems and workers

**3,697**

Community health workers trained and supported

**11,985**

Medical personnel provided personal protection equipment

**440**

Medical facilities assisted with COVID-19 preventative or response support

**3,097**

People supported with the securing of safe quarantine and/or isolation spaces

**60**

People provided transportation support

**31,286**

Disinfectant kits distributed

2.

## Support for children impacted by COVID-19 through education, child protection, food security, and livelihoods

**6,480**

People (children & their families) reached through psychosocial support

**21,917**

People (children & their families) supported to continue children's education remotely
