World Vision started working in Ukraine in 2022. Offices in Kyiv, Lviv, Dnipro and Chernivtsi currently manage and support aid for conflict-affected people in 23 municipalities across Ukraine. Thanks to collaboration with 15 national and international partners, World Vision has been able to deliver life-saving assistance to people living near the front lines while programs in safer areas already look at longer-term needs of displaced children and families as well as local humanitarian actors.

Protection
- In July-August, 2022, Youth Movement be Free (YMBF) and Radooga, with support from World Vision, conducted 124 summer camps in more than 10 oblast’ in Ukraine. It provided the participating children an atmosphere of safety and environment of normality. Parents and the caregivers were also able to dedicate the time while children were in the camps to deal with ongoing pressing issues to find some level of stability for their families. A total of 9,195 children learned and enjoyed arts, music, sports, and cultural activities. They also received psycho-social support through counselling and activities that helped the displaced children to overcome trauma they were going through all these months, as well as to socialize and integrate better to the new realities.

“You could see fear and uncertainty in the eyes of children when they first arrived in the camp, but as they engaged in the camp activities they opened. The thoughtfully organized routine of the camps, with dedicated specialized sessions, helped children to start smiling again and regain the hope for a happy future.”

Halyna Kulaga, Field Facilitator from Radooga.
Response Highlights

ROMANIA

World Vision has been active in the country for more than 30 years and currently supports refugees from Ukraine as well as host communities and institutions with 19 partners in 10 municipalities. World Vision has been able to deliver direct assistance from the first days of war, now the focus of intervention is to provide for refugee's families and children displaced without family's access to programs that respond to their immediate needs, facilitate their integration in hosted communities and access to basic rights as basic needs – food & non-food, cash assistance, education, psychosocial support, participation, and livelihoods.

In August, Romania was implementing several projects related to Response on its territory, which are in distinct stages of progress. Some of them are in the initial phase when discussions are taking place, focusing on building partnerships, following the legal procedures for authorizing the activities, etc. This phase even if doesn’t generate indicators, is the most difficult and time consuming for the team, but also is the most important for the future implementing process.

World Vision is one of the leading children's rights non-governmental organisations in Georgia. Throughout its over 20 years of work in the country, the organisation has been actively engaged in the strengthening of the child welfare system and creating a healthy and active society for children that is inclusive, tolerant and provides equal opportunities for all.

- Multiservice center for Refugees is well established and operational in Tbilisi and already in Batumi. The main direction of these UNHCR-funded centers is to assist beneficiaries in exercising their fundamental rights and facilitating the integration process into host community. The project staff continues to obtain the information, assess cases, provide consultation, and make relevant referrals according to the needs of the beneficiaries from Ukraine aiming to ensure their adequate and timely access to all governmental and non-governmental social, health and psychosocial services that meet their needs. Additionally, the centers provide refugees with employment support to restart their career and rebuild their lives. Information leaflets and brochures on available services are being disseminated actively among partners and beneficiaries.
- In August, comprehensive GESI-sensitive needs assessment of Ukrainian refugees was launched in the frame of the ADH-funded project. The aim of the Rapid Needs Assessment is to identify the primary needs and priorities of Ukrainian refugees and tailor/adapt program interventions accordingly. On the other side, the results of the Rapid Needs Assessment are important for the identification of the needs in a broader context. The enumerators at 6 target locations (Tbilisi, Telavi, Batumi, Larsi, Akhaltsikhe, and Kutaisi) will conduct fieldwork/face-to-face interviews. For the selection of the respondents, the snowball methodology as well as a random selection from the already existing list will be used. 300 respondents will be interviewed and 3 Focus Group Discussions conducted. The assessment will be finished by the end of September.
