Situation overview

- The UNOCHA Situation Report, which will feed into the Humanitarian Response Plan (HRP) for 2023 estimates that around 17.7m people will be in need in Ukraine, 22% of these in the non-government-controlled areas (NGCA). The regions assessed to have the greatest severity of need is all in the east where World Vision’s strategic aim of having seventy percent of its programming.

- In view of recent security developments, UN agencies are coordinating to limit visits from outside the country, prepare offices with back-up power, gas and internet, and put in place other mitigation measures.

- Current priority for humanitarian actors in Ukraine includes reaching people in need in areas where the Government of Ukraine recently regained control, especially in Kharkivska and Khersonska oblasts.

- World Vision is working with existing partners to respond using a small-grants mechanism, pre-positioning supplies in our Dnipro hub and participating in inter-agency convoy planning led by United Nations Office for the Coordination of Humanitarian Affairs (UN OCHA).

- World Vision is working with three local partners to address needs ahead of winter in the east with multi-purpose cash programming and NFI distribution.

Note: Ninety percent of our work in Ukraine Crisis Response is through our new partners. Thus, lag in gathering report data was experienced at initial stage.

Response Highlights

GEORGIA

World Vision is one of the leading children's rights non-governmental organizations in Georgia. Throughout its over 20 years of work in the country, the organization has been actively engaged in the strengthening of the child welfare system and creating a healthy and active society for children that is inclusive, tolerant, and provides equal opportunities for all. World Vision Georgia has been able to provide support and assistance to the people of Ukraine from the very first days of the crisis. WVG continues to support Ukrainian refugees based on their needs, through 2 projects implemented in the Capital City and 3 other regions of Georgia.

- Activities to increase the awareness raising of refugees on sexual and gender-based violence (SGBV), and child protection is ongoing. A curriculum/training module was developed for Ukrainian refugees.
- Ukrainian refugees can attend psychological support sessions for children and adults and cultural events for Ukrainians have been conducted at Multi-Service Centres in Batumi and Tbilisi.
- Parents, children and school authorities attended an introductory session of music and inclusive dance for Ukrainian children in public school N220. Please see the [link](#).
- The lead of community-based civil organisation discussed the ways of cooperation and possible support. Please see this [link](#).
