

Flood Response 2022

World Vision International-Cambodia

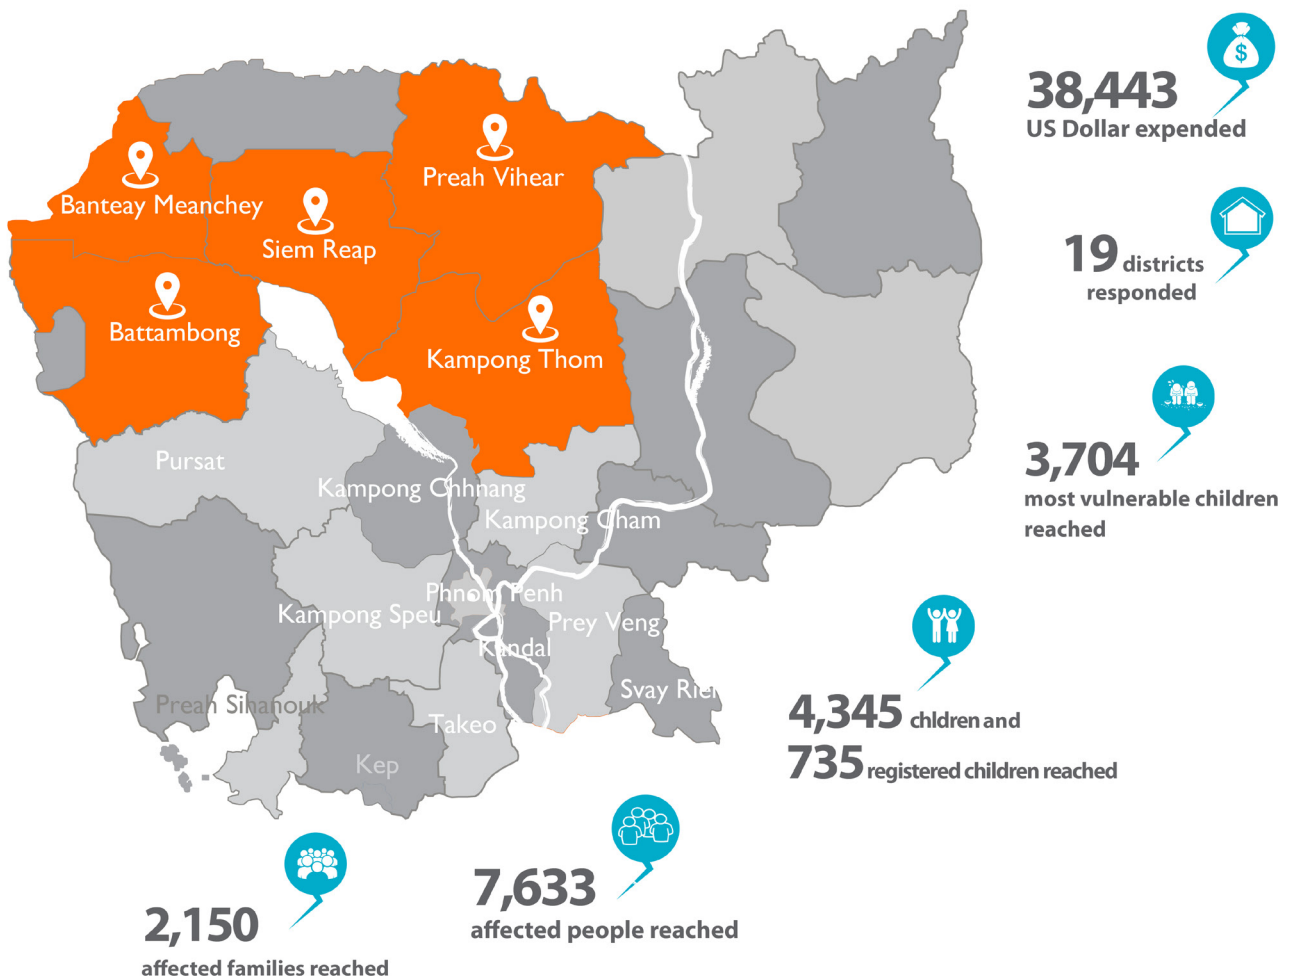

As of Oct 2022, the flood affected 21,588 families of 68,960 people including 35,267 female and 23,246 of most vulnerable children according to secondary data from local authorities and real assessment of World Vision International-Cambodia (WVI-C) team in 23 Area Programmes/ 21 districts. The flood caused 268 families evacuated to safety hills. The floods stopped students in 77 schools from pursuing their schooling in the whole month of October.

Goal

To save lives, alleviate suffering and support recovery of children and communities affected by floods.

Our Flood Response 2022

WVI-C's response programme was extended to five affected provinces (Battambang, Banteay Meanchey, Siem Reap, Preah Vihear and Kampongthom) and were able to assist:

Partnership between National Committee for Disaster Management (NCDM) and WVI-C for Flood Response 2022

NCDM partnered with WVI-C for joint response by focusing on WASH sector to the flood-affected families in 4 target provinces (Batambang, Banteay Meanchey, Preah Vihear and Kampong Thom).

- **160,000** Sachets of P&G purifier of water were distributed
- **4,001** floods-affected families received P&G purifier and benefited to more than **16,000** people and **8,000** children
- NCDM contributed cloth for filtering water and water containers
- NCDM and WVI-C team conducted the demo how to use P&G purifier of water to flood-affected families.
- Awareness raising sessions were mainstreamed to the communities to ensure their children are kept safe.

Sectors response

Food Security

36,875
kilograms of rice

348 kilograms of
lodized salt

1,068
litters of cooking oil

7,199 bottles of soy sauce/
fish sauce were distributed to
most vulnerable families

25,006
packs of noodle

5,959
cans of canned fish

WASH

- **1,075** meters of cloth for filtering water
- **412 (20L)** drinking water containers

Hygiene Kits

- **904** pieces of bathing soap
- **374** packs of laundry soap
- **356** pieces of toothpaste & toothbrush

Non-Food-Items

- **46** tents
- **90** mosquito net
- **60** blankets

Child Protection

- The posters of Do and Don't (before, during and after flood) were installed in the communities as the awareness raising to protect children from any eventually incidents during the floods.
- The awareness raising sessions were regularly conducted by local authorities and World Vision's teams.

Key lesson learnt

- Joint assessment and coordination with local authorities contributed to effective responses.
- WVI-C set up Humanitarian Accountability (HA) at the distribution points to receive feedbacks from those affected people. As the result, the affected families were satisfied the items of food assistance, WASH and Hygiene kits distributed.
- Support from high level leadership, H.E. General Kun Kim, Senior Minister and the first vice president of NDCM, who acknowledged World Vision's active engagement and complementary support to affected families, contributed to ongoing effective coordination with local authorities as well as internal resources mobilization with other WVI funding offices.
- Commitment from NCDM to strengthen the partnership with WVI-C for the prepositioning of P&G water purifier is helpful to prepare for future response.
