About the Program of Scale Partners for a Malaria-Free Zambia (PoS PMFZ) Project

The Programs of Scale (PoS), a 3-year project with USD 2 million funding each from Bill and Melinda Gates Foundation, Rotary International and World Vision United States, aims at supporting the scaling up of Integrated Community Case Management (iCCM+) in 10 districts in Central and Muchinga Province, respectively of the Republic of Zambia.

The PoS Project's primary outcomes are:

- Reduced cases of malaria, especially severe malaria and deaths, in PoS districts by 2024
- iCCM+ PoS sustained under Zambian Government management and financing

Key Activities

Systems Strengthening

Monitored functionalities of 1,521 Neighbourhood Health Committees through health centre committee (HCC) meetings

Social and Behaviour Change (SBC)

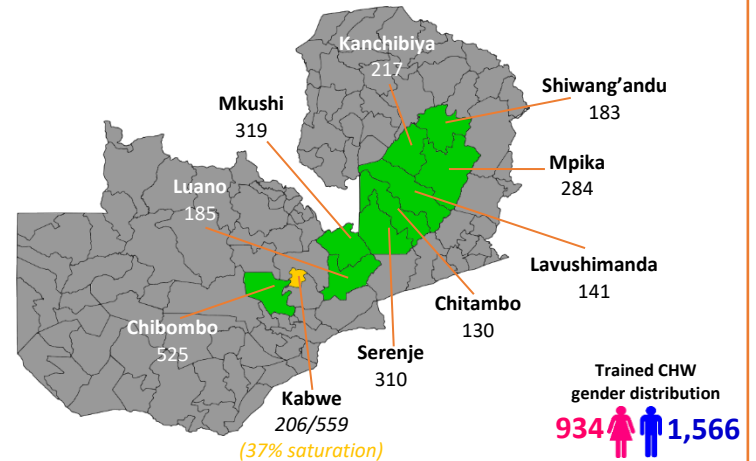

- Conducted a knowledge, attitudes and practices (KAP) survey among 4,000 individuals sampled from 2,000 households
- Facilitated 110 drama performances in Central and Muchinga Provinces to sensitise communities about malaria prevention, control and elimination
- Conducted orientation of 192 faith leaders, traditional, and civic leaders in malaria prevention, control, and elimination

Data Management

- Conducted data quality audits in 80 health facilities in Muchinga Province, in collaboration with PMI PAMO Plus, and 44 health facilities in Central Province
- Conducted monitoring and technical supportive supervision in 7 health facilities in Mpika district

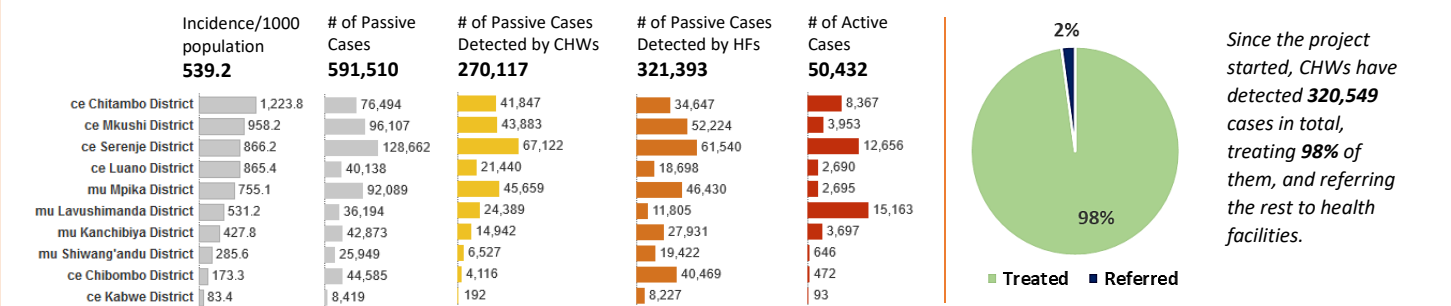

Community Health Worker Saturation

Numbers of trained CHWs in PMFZ-supported districts, as of 30th November 2022. (*In case you didn't know: A district is saturated when it attains a ratio of 1 CHW to 500 community members.*)

Malaria Rapid Reporting Indicators

Rapid Reporting Statistics, from 1st August 2021 to 30th November 2022. (*In case you didn't know: Passive cases are those detected when a patient visits a CHW or a health facility, and active cases are those detected when CHWs actively follow up cases in their communities.*)

Total number of Tests, Positives, Treatments and Referrals by CHWs, from 1st August 2021 to 30th November 2022
