

WORLD VISION UKRAINE CRISIS RESPONSE in MOLDOVA

The humanitarian crisis in Ukraine has caused death, destruction, and displacement of millions of its people. World Vision started responding to the crisis at the borders of Romania and then expanding its assistance to refugees in Georgia, Moldova, and the displaced populations inside Ukraine.

World Vision is working through four overarching programming objectives aiming to reach more than 900,000 people. This will be done through provision of life saving relief assistance, protection, mental health and psychosocial and educational services with greater funding and design to expand integrated, holistic programs creating greater impact.

Most of World Vision's work will be undertaken through partners. We will focus more on building partner capacity and empowering

them to become more self-reliant and efficient in services provision.

World Vision will deliver inclusive, need driven humanitarian assistance to refugees, internally displaced persons and the most vulnerable children and their families in Ukraine, Romania, Moldova, and Georgia.

World Vision started working in Moldova in March 2022. Currently an office in Chisinau supports Ukraine Crisis Response with five partners and six programmes in 33 districts. World Vision is also implementing the World Food Programme project in 18 districts in the country.

DEC Ukraine Humanitarian Appeal Phase 2a
