

# WORLD VISION UKRAINE CRISIS RESPONSE in ROMANIA

The humanitarian crisis in Ukraine has caused death, destruction, and displacement of millions of its people. World Vision started responding to the crisis at the borders of Romania and then expanding its assistance to refugees in Georgia, Moldova, and the displaced populations inside Ukraine.

World Vision is working through four overarching programming objectives aiming to reach more than 900,000 people. This will be done through provision of life saving relief assistance, protection, mental health and psychosocial and educational services with greater funding and design to expand integrated, holistic programs creating greater impact.

Most of World Vision's work will be undertaken through partners. We will focus more on building partner capacity and empowering them to become more self-reliant and efficient in services provision.

World Vision will deliver inclusive, need driven humanitarian assistance to refugees, internally displaced persons and the most vulnerable children and their families in Ukraine, Romania, Moldova, and Georgia.

World Vision has been active in Romania for more than 30 years and currently supports refugees from Ukraine as well as host communities and institutions, with 7 partners in 15 municipalities.

World Vision has been able to deliver direct assistance from the first days of war and is focused on supporting refugee families and children displaced without their families through programmes that respond to their immediate needs, facilitate their integration in host communities, and access to basic rights as basic needs – food & non-food, cash assistance, education, psychosocial support, participation, and livelihoods.

## Education in Emergencies and Critical Protection Needs for Children, People Living with Disability, Older Persons and those Facing Risks of Gender-based Violence as a Result of the Crisis in Ukraine

 **Goal:** To protect the wellbeing of 13,014 refugees from Ukraine and vulnerable host communities in Romania and Moldova, by addressing their critical protection and education needs
