

Country Profile FY23

WORLD VISION LEBANON

World Vision started operating in Lebanon in 1975. Since then, it has been assisting Lebanese families and refugees through long-term development projects, emergency relief, and advocacy, complementing the efforts of the government and other humanitarian partners.

World Vision has been working with the poorest communities in Lebanon for nearly 49 years, and has established strong relations with communities and local stakeholders. World Vision's development programme focuses on empowering local communities to become agents of change. World Vision programmes in Lebanon are designed to strengthen a child-sensitive social protection system for vulnerable girls and boys, through evidence-based

interventions in child protection, education, water, sanitation & hygiene (WASH), basic assistance and livelihoods.

Since 2012, World Vision has been responding to the Syrian Crisis by assisting Syrian refugees and vulnerable members of local host communities through humanitarian relief programs across sectors. In 2020, World Vision responded to the COVID-19 pandemic and reached 473,359 individuals including 171,302 children to limit the spread of the virus and reduce its impact on vulnerable children and families. World Vision also responded to the Beirut Explosion and delivered assistance to 169,313 beneficiaries including 67,234 children. And currently, World Vision is responding to the socio-economic situation in Lebanon.

THEMATIC FOCUS

HUMAN CAPITAL

World Vision Lebanon is WFP largest partner in Lebanon for cash programming and is in discussions with the WFP and the Ministry of Social Affairs to align/integrate, the cash & vouchers programming into the National Poverty Targeting Programme, with a multi-sector approach.

RECOVERY & RESILIENCE

Since 1975 World Vision has been responding to the pressing and ever-changing needs of the children of Lebanon. Our focus has been on responding, adapting, learning, and reaching millions of vulnerable children and their families affected by crises and helping them on the road to improved and sustained well-being.

SOCIAL ACCOUNTABILITY

World Vision applies the Citizens Voice and Action methodology in its long-term development programmes to transform the dialogue between communities and government in order to improve services, like child protection and education, which impact the daily lives of children and their families.
