CONCLUSION

Brief Overview

In FY-24, World Vision Malawi made significant strides in enhancing the well-being of vulnerable children and communities through the effective integration of Gifts In Kind (GIK) resources across various sectors. The organization distributed essential items such as school furniture, medical supplies, bibles, re-milled soap, solar panels, wheelchairs, new apparel, and soccer balls among others.

These contributions have led to improved educational environments, better health services, enhanced personal and public hygiene, increased agricultural productivity, and strengthened community resilience. By fostering partnerships and leveraging grant matching opportunities, World Vision Malawi has not only amplified its impact but also bolstered its credibility and visibility, ensuring sustainable development and community growth.

World Vision Malawi National Director
Mr. Francis Dube

Foreword

On behalf of Gift In Kind (GIK) in Malawi, I would like to extend my heartfelt gratitude to you for the unwavering support that you are providing to us.

Through your support, we have managed to fulfill our objectives in FY 24. We have managed to integrate GIK with health, education, disaster management unit, livelihood and resilience, disability, and community engagement and sponsorship planning. Furthermore, GIK has assisted in the following areas, disaster management unit prepositioning, grant matching, relationship building by working with strategic partners, motivating community volunteers and promotion of World Vision brand. We have created a conducive learning environment for learners by supporting public schools with school supplies, ceramic floor tiles and school furniture, brought solar energy to schools and health centers in the rural areas for good health service delivery, water and sanitation. We have supported vulnerable children who have been selected to secondary schools by giving them hygiene kits, assorted school supplies and suitcases among many things. With your support, World Vision made communities including children's lives in Malawi to continually transform through different interventions.

The need for GIK is very huge as there are still gaps in social service delivery especially in public institutions hence the need for more support from you.

Once again, on my own behalf and the people of Malawi, I would like to extend my appreciation for the great support that you continuously render to us.
