

TOGETHER FOR CHILD WELL-BEING

Our 5-Year Journey (2021–2025)

A Strategy That Transformed Lives

World Vision (WV) is a child-focused relief, development and advocacy organisation that has contributed to transformation in the lives of millions of children around the world in vulnerable situations. WV aspires to achieve this through partnership with local communities, civil societies, local partners, government, donors and private sectors where we believe in mutual participation and trust, shared vision and goal, accountability and responsibility. We are a child-focused organisation driven by Christian values to serve children and families regardless of their religion, age, gender, ethnicity, class and caste.

World Vision International (WVI) Nepal is a part of the World Vision International global partnership operating in nearly 100 countries. WVI started its long-term development programme in Nepal in 2001

to contribute for well-being of children. At present, WVI Nepal has long-term development programmes in 17 districts, namely Udayapur, Sarlahi, Mahottari, Rautahat, Sindhuli, Kathmandu, Lalitpur, Lamjung, Jumla, Kailali, Kanchanpur, Achham, Doti, Dailekh, Jajarkot, Banke and Bajhang across the seven provinces of Nepal.

World Vision International Nepal implements its country strategy through integrated sectoral interventions with innovation in local communities and neighborhoods. The current programmes are Inclusive & Quality Education, Protection & Community Engagement and Nutrition and Resilient Livelihoods with Gender Equality, Disability and Social Inclusion (GEDSI), along with Disaster Risk Reduction and Climate Change Resilience as crosscutting agendas contributing to the well-being of children.

OUR STRATEGIC GOAL (2021–2025)

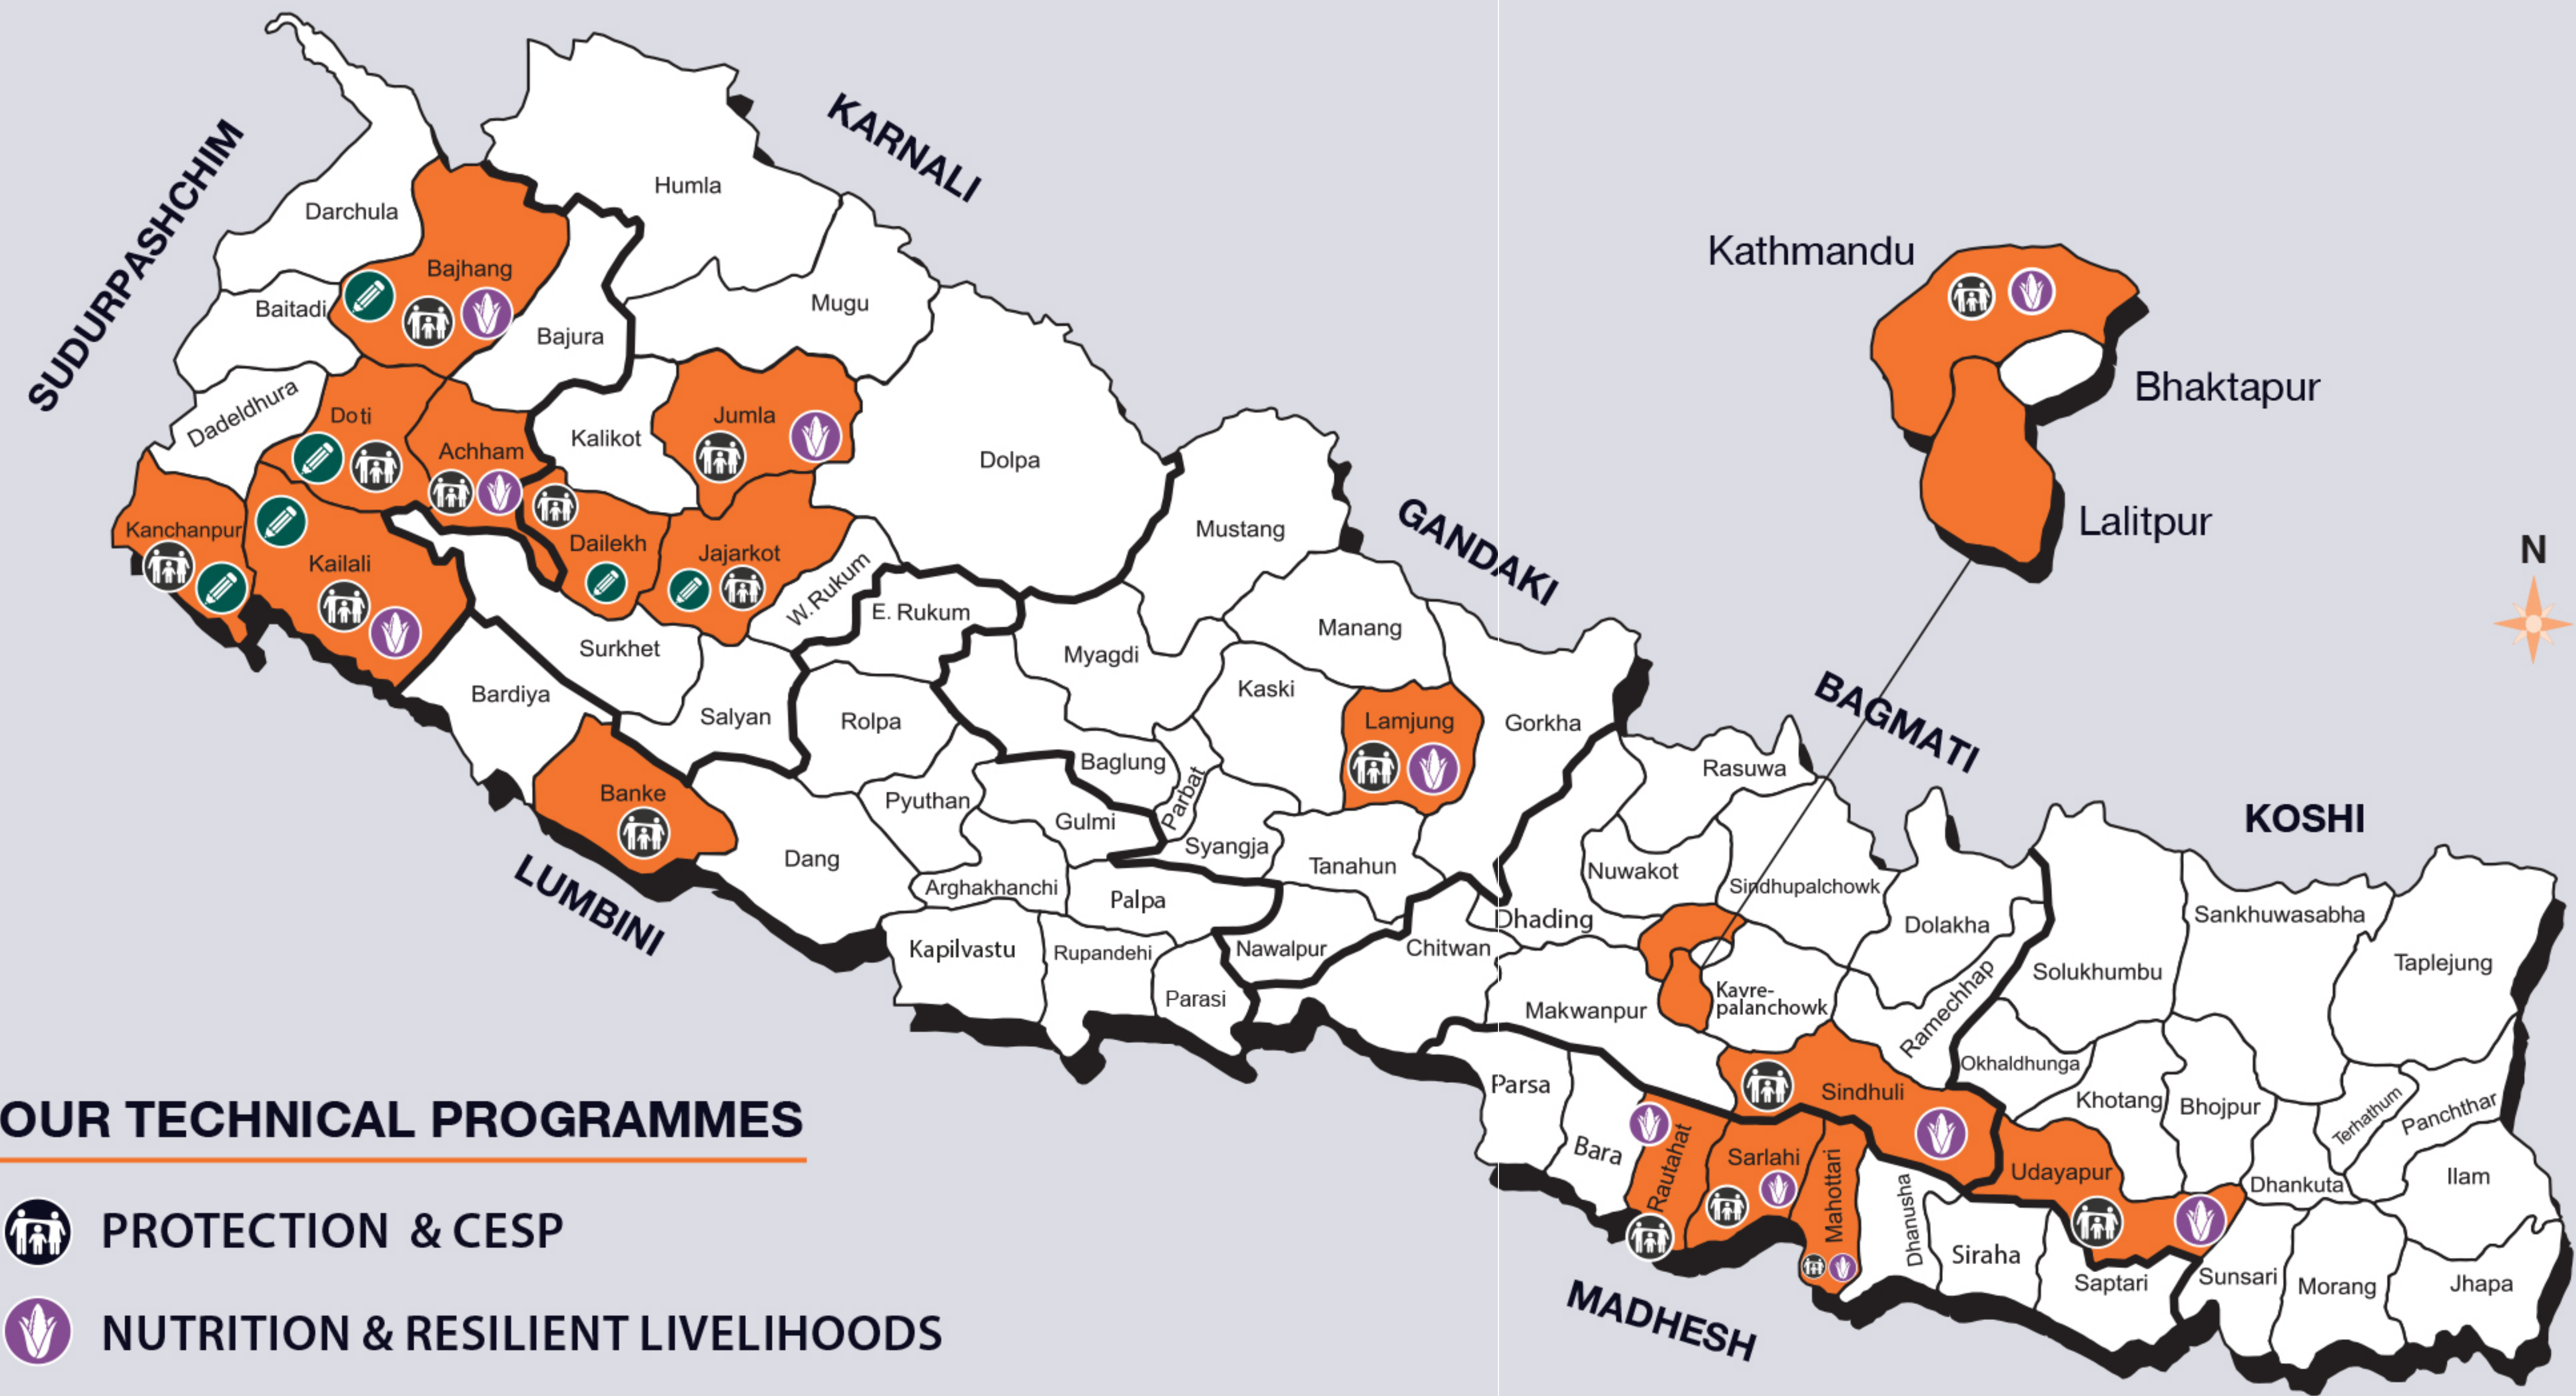

To improve the well-being of 0.8 million children, especially the most vulnerable, by addressing violence, malnutrition, lack of quality education, and promoting positive community relationships.
