

Cyclone Pam

One year on

World Vision

With your support World Vision has reached more than 62,000 people with essential humanitarian support. But it remains a long journey to recovery and as Vanuatu rebuilds and regrows we are continuing to support communities to recover and be more resilient for future disasters.

With your support
World Vision has:

Assisted 62,000+ people across 3 provinces with their recovery

Distributed food to 55,000 + people

Distributed 47,000 + essential household items

Helped 23 communities access clean water

Provided 80 + preschools and primary schools with essential supplies

There's still
more work
to be
done...

With your support we're
continuing to assist the
people of Vanuatu with
their recovery through:

Increasing
families access to
improved water
sources and
storage

Working with farmers
to grow climate
resilient crops

Repairing and
rebuilding
damaged pre-
schools

In partnership with a
local community
organisation working
with women to
increase their income
and access savings
groups and financial
literacy
