# Who we are & How we work

## TIMELY AND TAILORED TECHNICAL SUPPORT

The Technical Service Organization (TSO) is a global consultancy group based within World Vision International. The TSO Child Protection and Participation team provides a multi-disciplinary approach working alongside our clients to enhance child protection programming, advocacy and the meaningful participation of children.

With a team of seasoned development professionals from Asia, Africa, the Middle East, Eastern Europe and the Americas, we are able to combine skills and contextual knowledge to provide culturally sensitive, and adapted technical approaches based on evidence and practice.

We draw from experience and learn from those we serve. We take an adaptive and empowering approach to consultancy. We listen carefully to the client and co-create an approach to each assignment. We operate in many languages including English, Spanish, French, Russian, Armenian, Hindi, Dutch, and Swahili,

We tap into our networks of practitioners and academic institutions to ensure that we utilize proven approaches and tools.

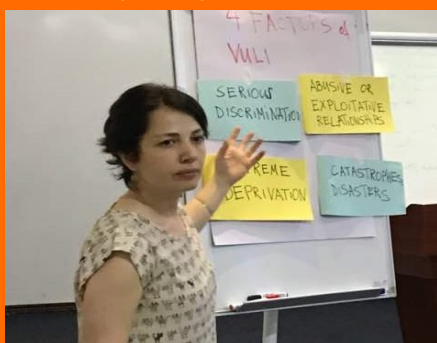

## EXAMPLES OF SERVICES PROVIDED:

- The design and application of child friendly monitoring tools for the Albanian National Agenda for Child Rights including the design of consultancy workshops with children to determine their priorities, relevant tools and approaches
- Child Protection in Emergencies (CPIE) training to the Chinese government and local partners based on contextualized CPIE minimum standards
- Training child protection staff from East Africa on how to work with and empower children and adolescents
- Technical guidance to the Afghanistan government in collaboration with UNICEF and other NGOs on child protection services reform
- Deployment to the Hurricane Maria response in Puerto Rico to help design and implement children in emergencies programming and liaise with key stakeholders
- Facilitation of design workshops for advocacy campaigns to address violence against children in Latin America, Africa and Asia

## What we do

- Child Protection programme design, monitoring & evaluation
- Systems based solutions to early marriage, trafficking, child labour, corporal punishment, etc.
- Child Protection programme adaptation to fragile contexts
- Child Protection programming capacity building
- Child Safeguarding policy and practice
- Child Participation & child rights capacity building, guidance & mainstreaming

- Identifying and working with the most vulnerable children
- Adolescent and youth programming
- Child Protection in Emergencies training and deployment
- Scenario planning

*world-class technical sector service*

## Testimonial

*“The training was so simple and practical that it was easy to follow and understand through all the topics that were presented. The training has helped improve knowledge, skill and competency of staff in child protection programming, monitoring and evaluation, and partnering. “*

TSO Client - Gregory Nery, WV Ghana
