

BECAUSE

Lack of access to proper healthcare and appropriate nutrition robs millions of children their future

Violence against children keeps children from reaching their God-given potential

Clean water and proper sanitation are foundational for living a healthy life

Children don't just want to survive, they want to thrive

Many families are trapped in cycles of poverty

DURING THIS YEAR

We are **protecting** children, **making** sure children are healthy, **providing** life-changing water,

helping children succeed, **empowering** parents to care for their children.

Every 24h World Vision Senegal

Provided more than

60,000 liters 

of clean purified water to communities who were previously using unsafe sources of water (ponds, backwaters and polluted wells).

Empowered more than

160 mothers

of child bearing age to adopt appropriate skills and behaviors to improve mother and child health.

Provided a sustainable source of drinking water to

32 children 

(girls and boys) to fight diarrhea and infectious diseases.

Provided appropriate latrines to

9 households 

to fight open defecation and its negative impacts on family hygiene and health.

Empowered more than

65 children 

(girls and boys) to build self-resilience and protect peers and themselves from neglect, abuse or exploitation.

Empowered community members to use the

531 Alert Monitoring and Listening Committees 

to report child abuse or exploitation cases to authorities and jurisdictions and help prevent these occurring.

Improved better life conditions for

230 children 

living in households benefiting from our microfinance subsidiary VisionFund Senegal SA who gives larger loans to families with entrepreneurial potential to help them develop economically and escape the trap of poverty.

Provided food and non-food assistance to

25 people 

affected by disaster (costal erosion, food shortage due to drought) to solve urgent survival needs.

Advised over

812 parents 

(women and men) to enroll family members in Community Based Health System to allow them the ability to pay for health care when health issues strike their family.

Supported women's groups to monitor and provide appropriate feeding to

350 child bearing women 

to ensure effective child nutrition.

Supported active engagement of

317 religious leaders 

(Christians and Muslims) and their spouses to promote positive parenting attitudes to improve child well-being.

Gave opportunity to over

160 adults 

(women and men) to save, grow and diversify their income through participation in community savings groups that give families the means to better care for their children.

Supported communities to build capacity among more than

60 children 

in school to improve reading ability through community reading clubs.
